1

Scan the QR code placed on the Charger

Select the Google Play or App Store to download EKO Smile.

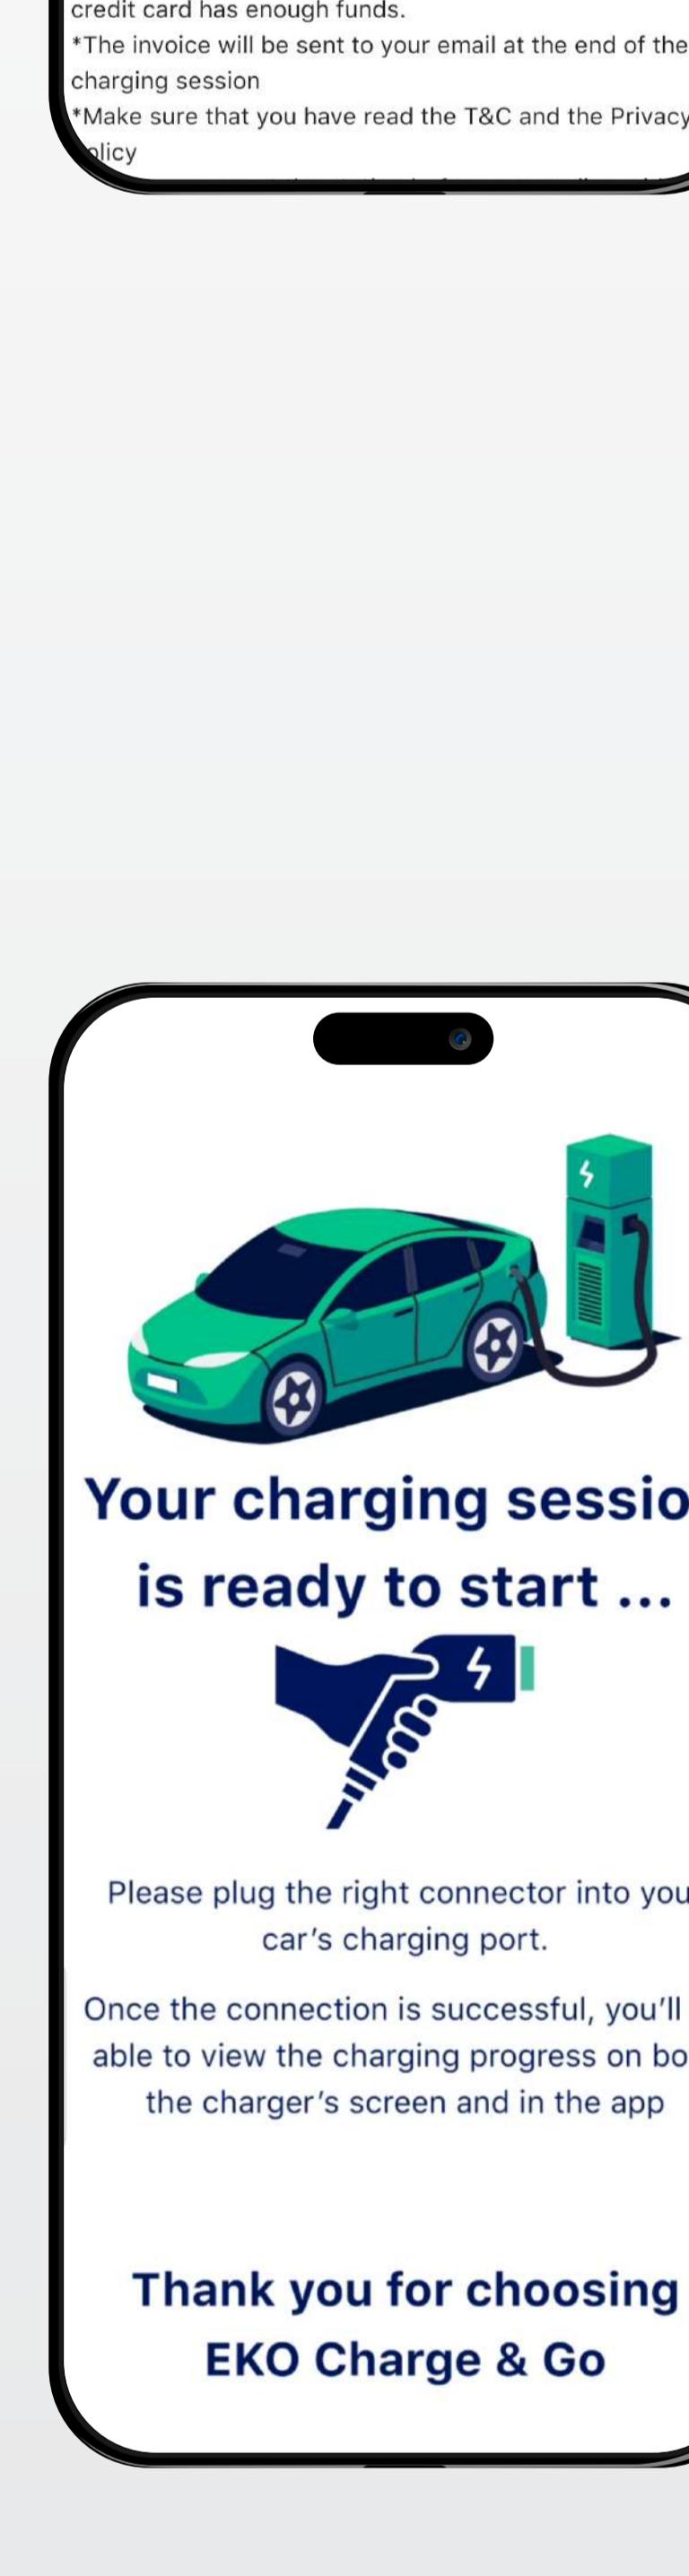

2

Launch the App

Tap the EKO Charge & Go button to charge as a guest (without registration).

3

Read and accept the Terms & Conditions and the Privacy Policy to continue.

4

Allow EKO Smile to access your device's location.

5

If you are not at a charging station, a map with all available charging stations will appear, and you will need to select the one you wish to use.

With the 'Scan & Charge' button, you are taken directly to the available connectors by scanning the QR code on the charger.

If you are at a charging station, then the screen shown in Step 6 will appear, displaying all the information for the current charging station.

Tap Continue to proceed.

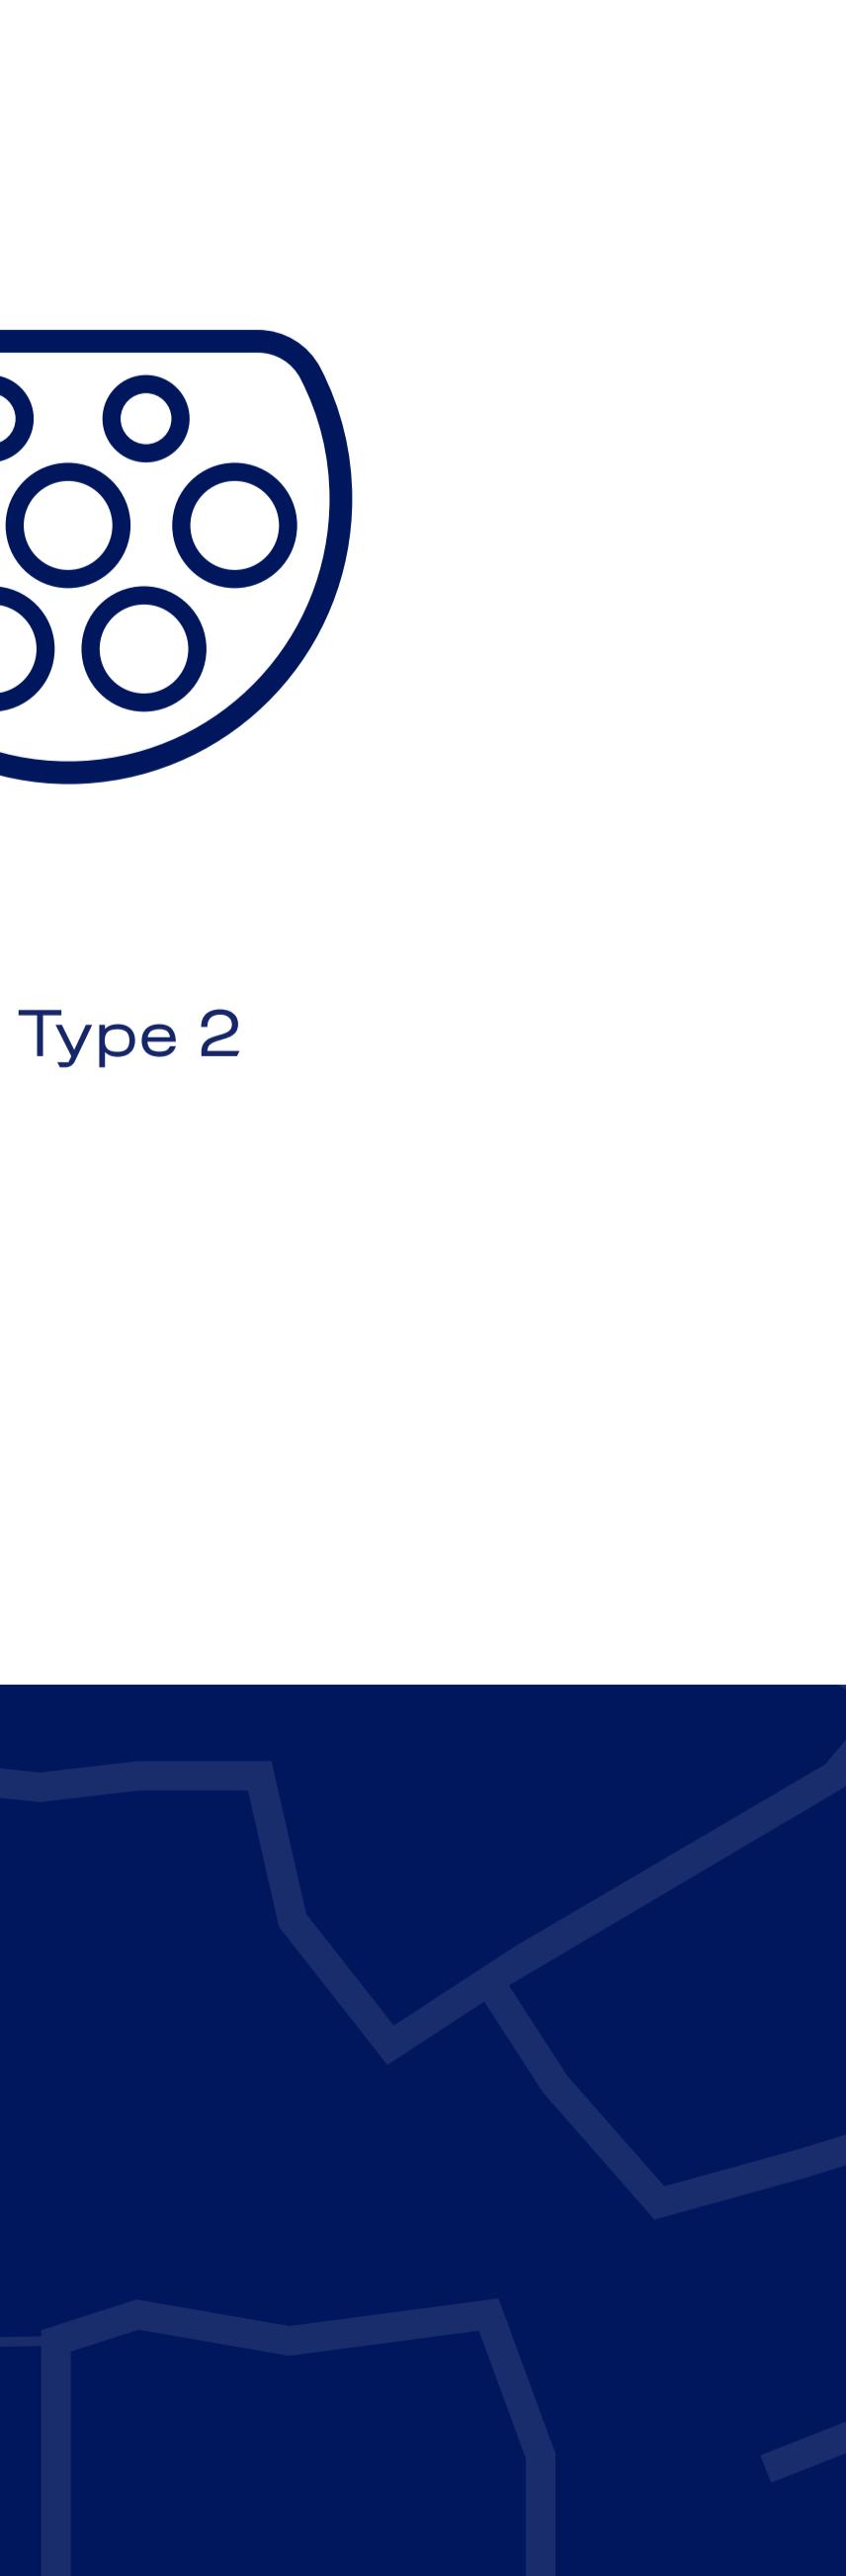

6

Choose the appropriate charging connector.

7

Charging connector verification: Confirm by selecting "Yes".

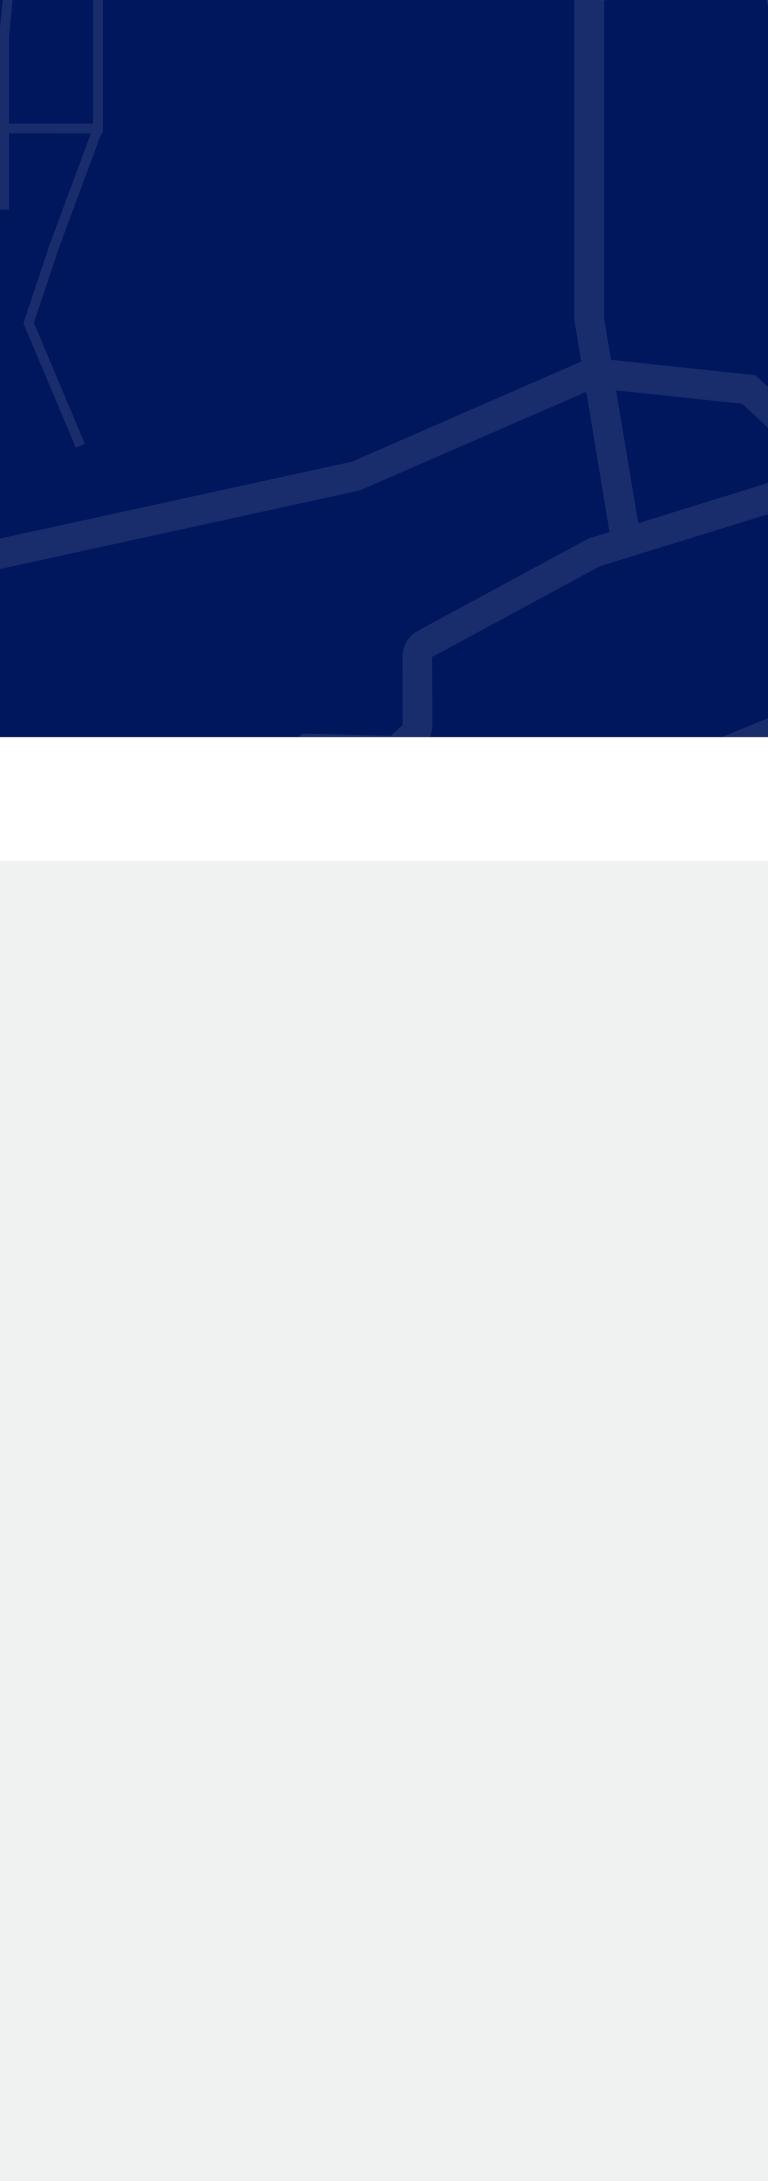

8

Enter the desired amount to be charged.

Tap "Pay".

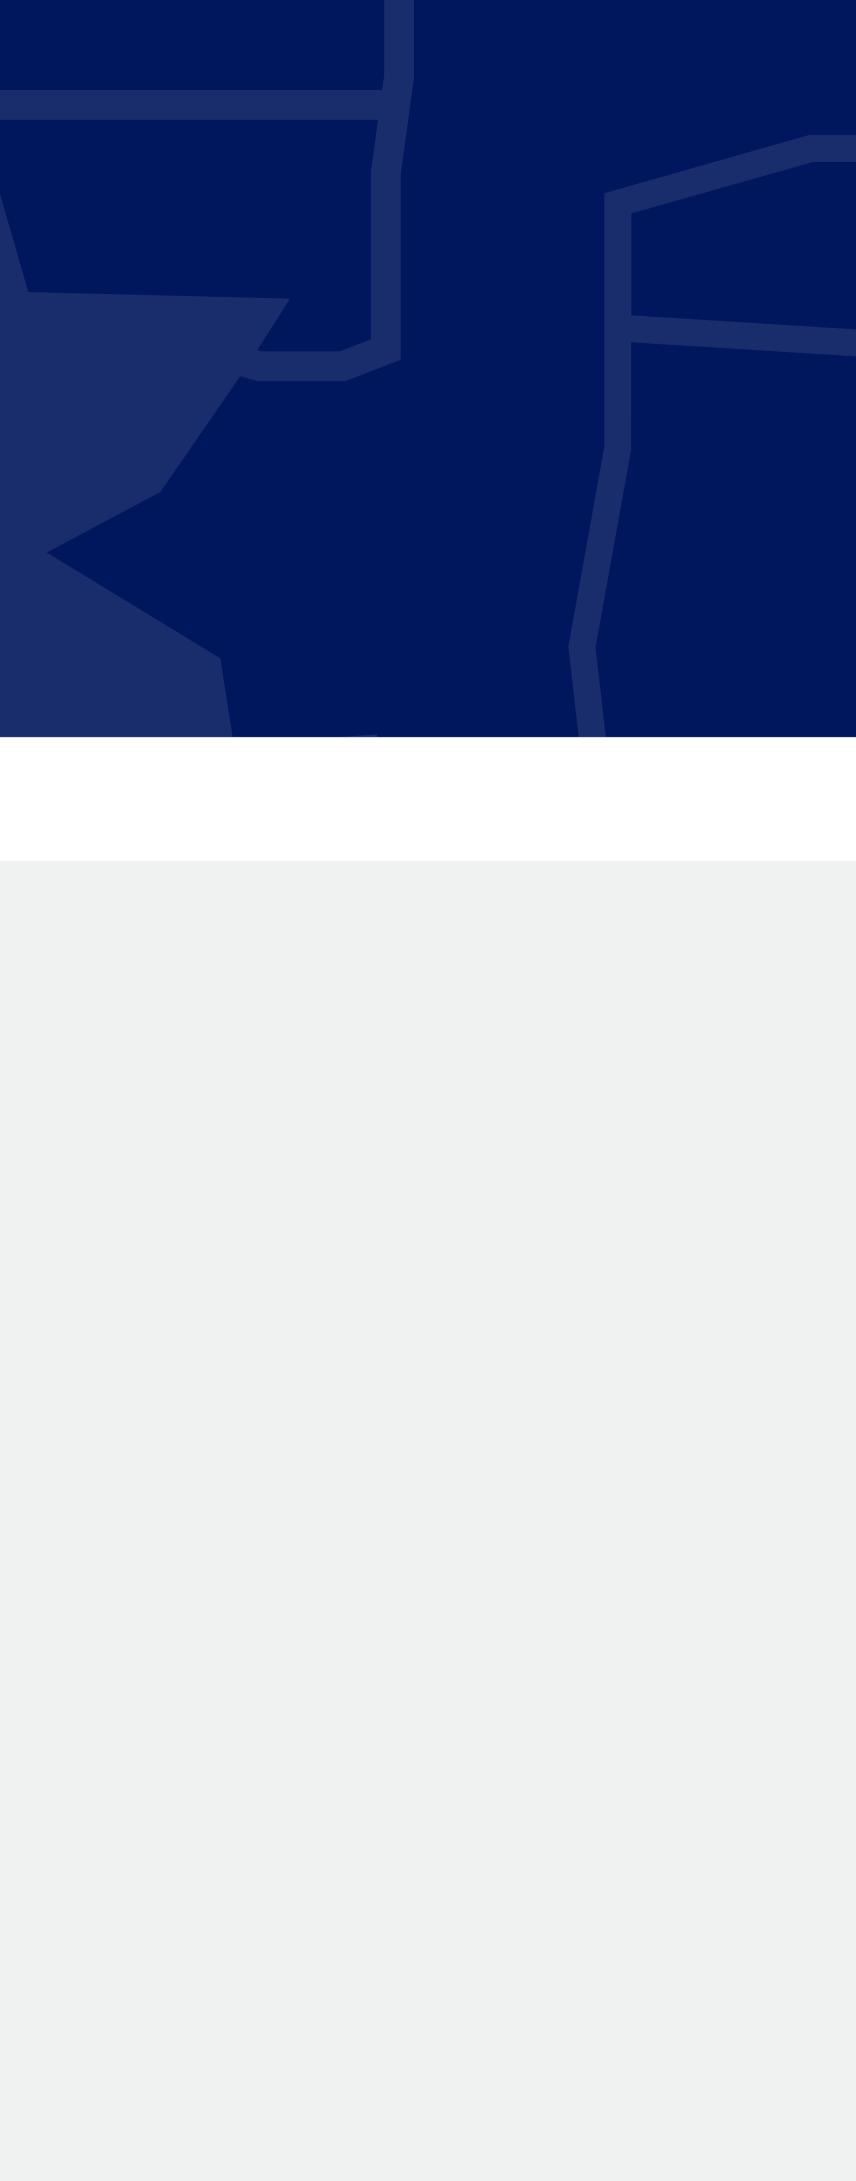

Enter your personal card details to complete the payment.

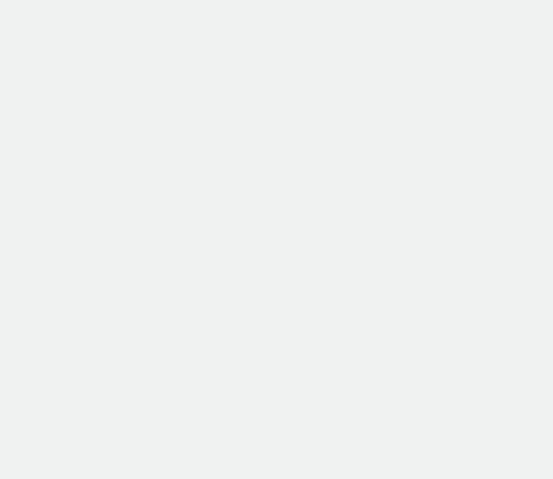

9

You are now ready to charge.

a. Plug the right connector into your car's charging port.
b. Choose the right connector on the charging session.

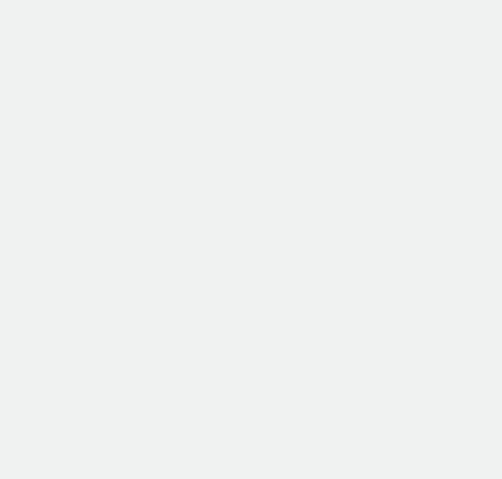

Supported Connector Types

CHADEMO

CCS Type 2

AC Type 2
