- Launch the App**

Upon launching the app, you will see the home screen as shown below.
- On the home screen, you will see the "EKO Charge & Go" button under the "Services" section

  - When you tap it, a popup will appear;
  - Grant permission to the app to access your location.

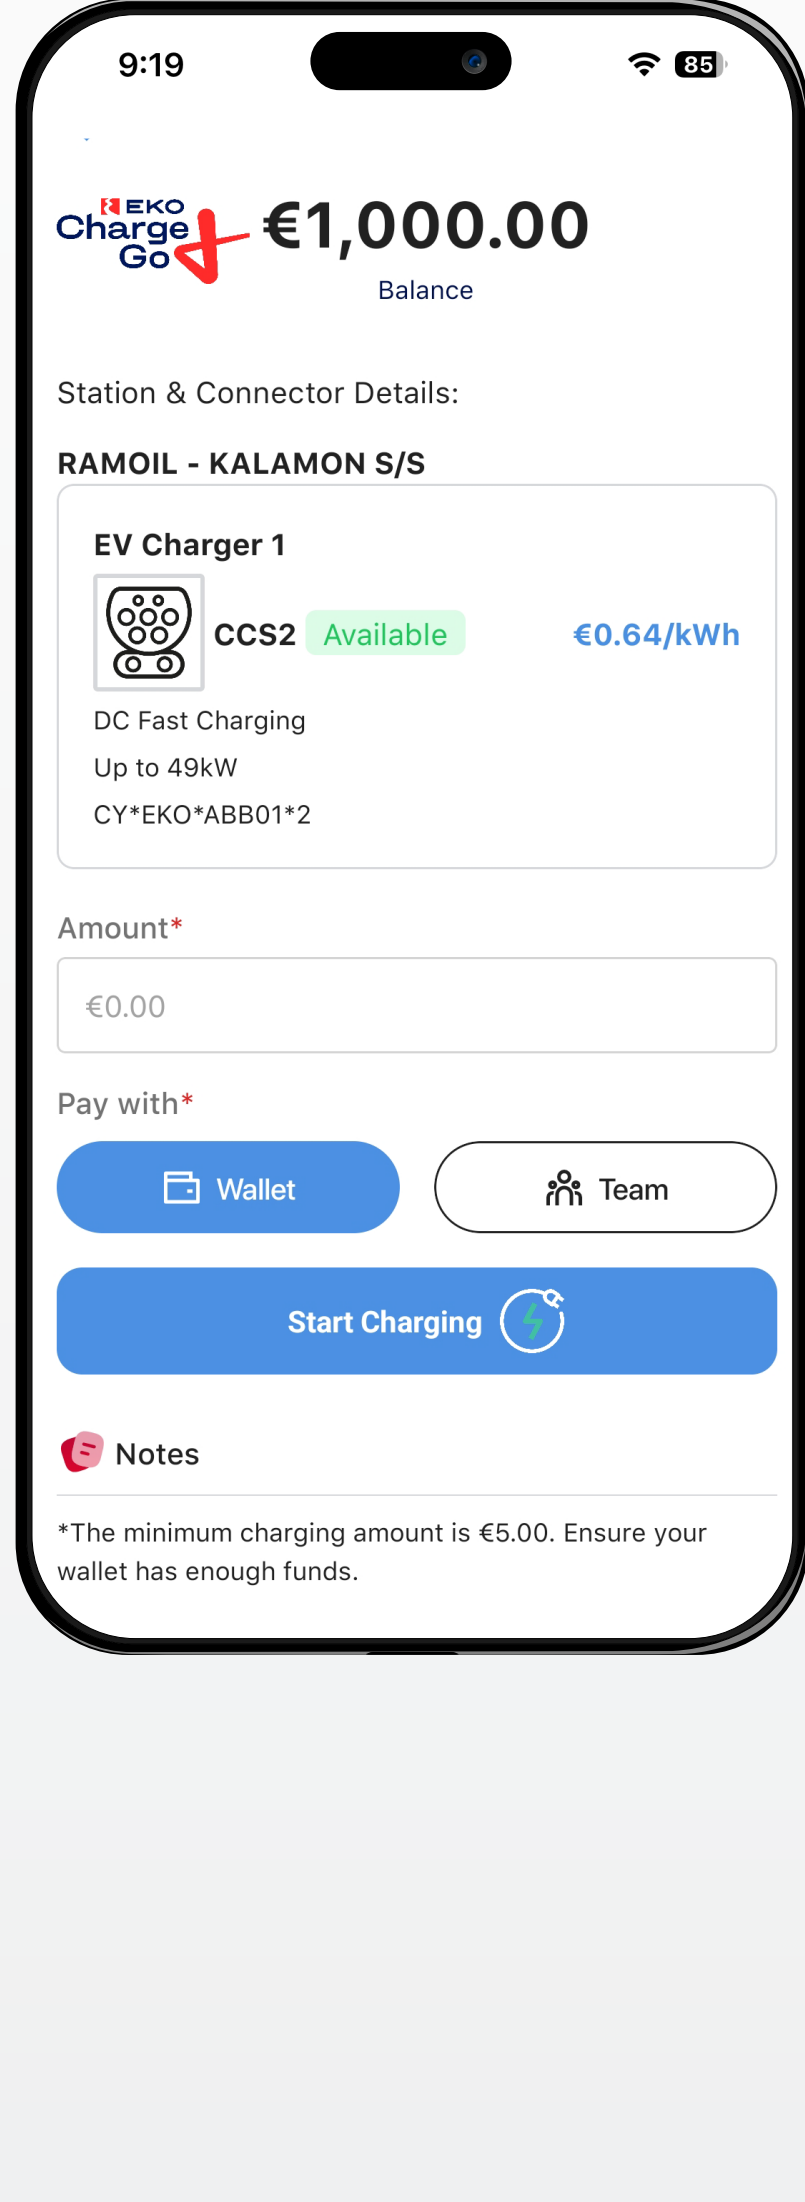

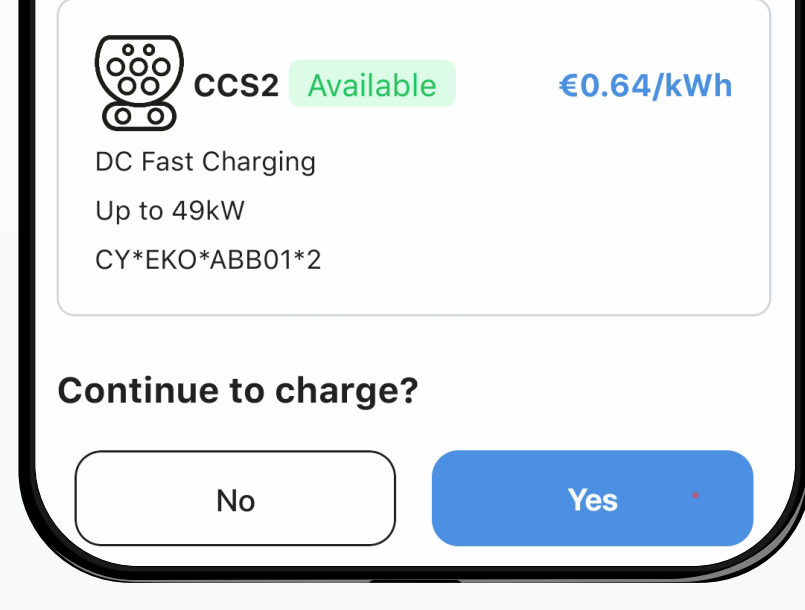

- If you are **not** at a charging station, a map with all available charging stations will appear, and you will need to select the one you wish to use.

If you are **at** a charging station, then the screen shown in Step 4 will appear, displaying all the information for the current charging station.

- Tap **Continue** to proceed.

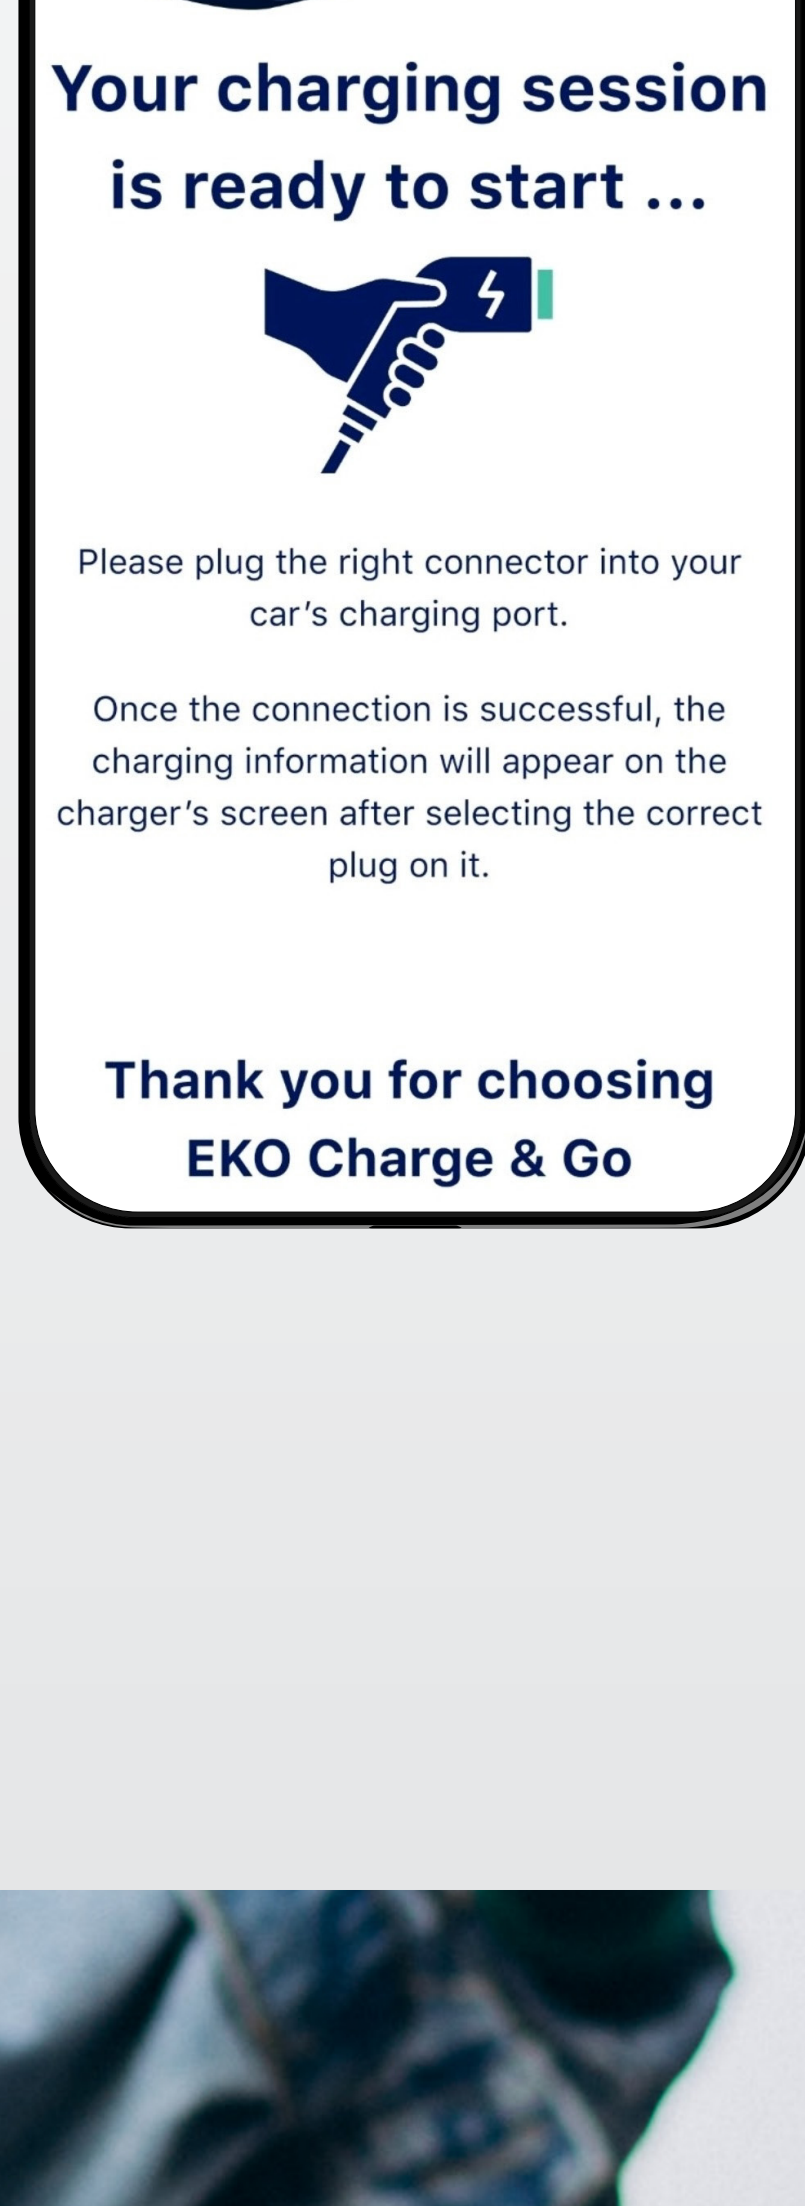

- Choose the **appropriate** charging connector.

- Enter the **desired amount** to be charged. Make sure that your wallet has **sufficient balance**.

Tap **"Start Charging"**.

- You are now ready to charge.

  - Plug the **right connector** into your car's charging port.
  - Choose the **right connector** on the charger's screen to start the charging session.

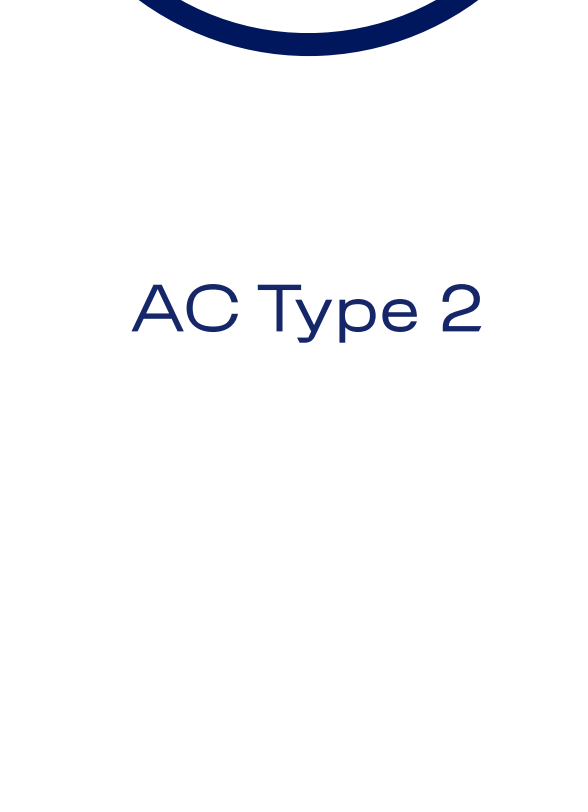

## Supported Connector Types

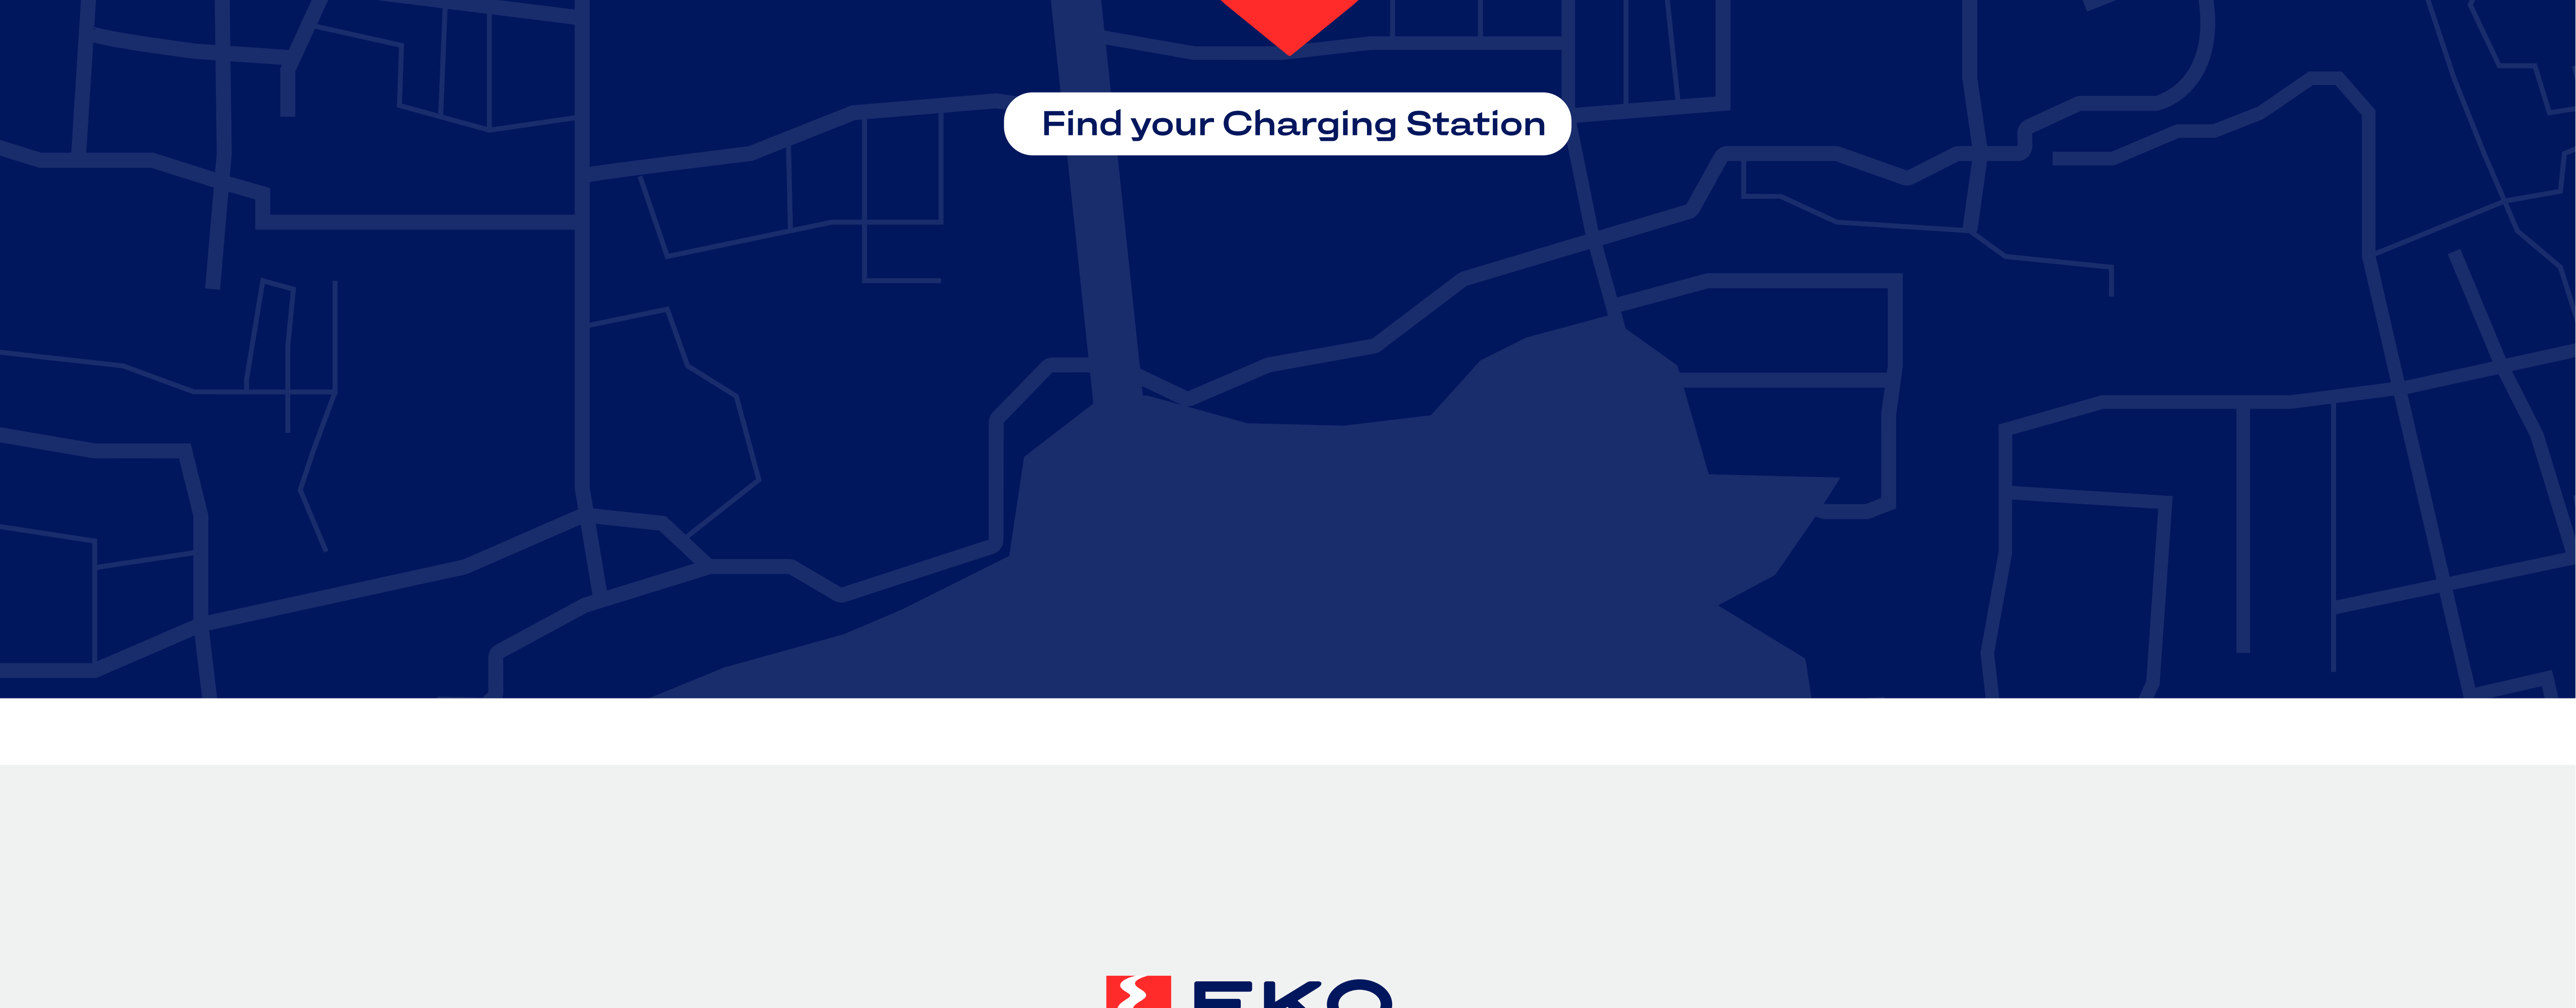

CHAdeMO
